

FAREWELL TO THE PENNY!

The U.S. Mint stopped producing new pennies. While they'll still be accepted, they will become less common in everyday transactions. WMB will follow the below guidelines as we start to phase out the penny.

- Electronic payments remain unchanged.
- Pennies still accepted for deposits.
- Businesses can receive up to \$3 in pennies per week for change orders (while supplies last).

We'll keep providing pennies until our current supply runs out. Got a jar full of pennies at home? Bring them in—we'd love to put them to good use!
